PROFESSIONAL SUMMARY

Finance, Accounting & Tax (FAT) professional and Data Analyst with 6+ years of experience turning financial and operational data into business decisions. Brings senior-level FAT expertise and Certified Tax Advocate Practitioner (CTAP) credentials alongside hands-on analytics. Spent nearly six years running FAT and analytics across a multi-business group in Palu, Sulawesi Tengah — combined 1–3 billion IDR monthly turnover, 20–50 employees — while leading multiple store locations across the province as Area Supervisor. Proficient in Python, SQL, Excel, Tableau, and Power BI, with a strong foundation in bookkeeping and Indonesian tax regulations (Brevet A & B, CTAP). Completing a Data Scientist bootcamp at Dibimbing.id (95.57 / 100, A+). Open to data analyst, finance analyst, tax, and business intelligence roles in Indonesia and internationally.

EDUCATION

Certified Tax Advocate Practitioner (CTAP) — Praktisi/Pengacara Pajak (PKP3) | Jimly Law School | Jakarta, Indonesia | Apr 2026 – May 2026

Graduated

Data Analyst / Data Scientist Bootcamp | Dibimbing.id | Indonesia (Online) | Oct 2025 – Apr 2026

Grade: 95.57 / 100 (A+)

- Data Analyst projects: RFM customer segmentation analysis and inventory analysis (Python, SQL, Tableau).
- Data Science projects: K-means customer clustering and two regression models predicting food delivery time.

Bachelor of Science in Business Management | Biola University | La Mirada, CA, USA | 2013 – 2016

GPA: 3.39 / 4.00

WORK EXPERIENCE

Store Lead Consultant | Xiaomi | Palu, Sulawesi Tengah, Indonesia | Jan 2026 – Present

- Led a team of 8 sales staff across multiple store locations in Sulawesi Tengah while managing daily store operations handling 200–500 transactions and 100+ unique SKUs; drove 300%+ revenue growth from January 2026 to present through team coaching, visual merchandising compliance, and targeted sales execution.
- Managed end-to-end inventory operations across 100+ SKUs — identified reorder priorities through data analysis and applied Python-based forecasting models to predict monthly stock needs, reducing stock-out and overstock occurrences by 10–40%.
- Built and published a monthly Power BI dashboard covering sales performance, inventory levels, and operational timing — reviewed by team, management, and shareholders to drive store-level purchasing and business decisions.
- Handled store financial administration including invoice reconciliation against bank statements, monthly petty cash management (5–10 juta IDR), and budget planning against a 50 juta IDR monthly store budget to maintain accurate financial records and cost accountability.

Sales Data Science & Analytics Intern | Dibimbing.id (EdTech & Professional Training) | Indonesia (Remote) | May 2026 – Present

- Cleaned and standardized a raw sales lead dataset of ~3,200 records across 39 columns using Python (Pandas), handling inconsistent location entries, free-text Indonesian fields, and missing values to produce an analysis-ready dataset for the sales team.
- Analyzed lead acquisition channels (Instagram, Google Ads, referrals) and prospect demographics (age, domicile, education background, current occupation) across four product lines (Data Science, Data Engineering, Product Management, Digital Marketing) to identify the highest-converting customer segments.

- Surfaced prospect motivations, decision drivers, and channel performance patterns from cleaned lead data to inform marketing targeting and sales outreach strategy.

Data Analyst | PT Agri Mentari Trust (Agriculture & Commodities Trading) | Palu, Indonesia | Jan 2025 – Aug 2025

- Built financial dashboards and monthly performance reports in Excel and Power BI, giving management real-time visibility into margins, costs, and cash position.
- Analyzed commodity sales performance and customer demand trends to inform pricing strategy and new-market expansion decisions.
- Automated expense tracking and reporting workflows, eliminating repetitive manual entry and reducing reporting errors.

Finance, Accounting & Tax (FAT) Supervisor, Multi-Store Area Lead & Data Analyst | Multi-Business Group (Share Tea, Selebes Selular, Ayam Penyet Ria) | Palu, Sulawesi Tengah, Indonesia | Jan 2019 – Oct 2024

- Ran analytics, operations, bookkeeping, and tax compliance concurrently across three businesses (F&B, telecom retail, and QSR) under a single ownership group, leading multiple store locations across Sulawesi Tengah — combined 1–3 billion IDR monthly turnover and 20–50 employees at peak.
- Produced monthly cash flow, sales, and P&L reports per business, giving the owner a consolidated view that supported pricing, staffing, and expansion decisions across the group.
- Analyzed sales and inventory data across 50+ SKUs per business, cutting stock discrepancies by 20–30% and reducing overstock / stock-out risk by 15–25%.
- Managed end-to-end bookkeeping, payroll, and monthly PPh 21 calculations for 20–50 employees across the group, maintaining consistent tax compliance over 5+ years.
- Led 1–3 staff per branch and drove cost-control initiatives using margin, OPEX, and labor cost analysis, reducing inventory losses by 20%+ in the QSR business.

Marketing Communications | Siloam Hospitals Kebon Jeruk | Jakarta, Indonesia | Aug 2018 – Nov 2018

- Analyzed campaign performance metrics to evaluate engagement, effectiveness, and brand impact for internal hospital communications.
- Produced internal reports summarizing event ROI and employee participation to inform future communications planning.
- Improved internal data tracking and reporting workflows, supporting faster turnaround on communications deliverables.

Accounting & Tax Support | Universal Tax | San Gabriel, CA, USA | Jul 2016 – May 2017

- Supported small-business clients with day-to-day bookkeeping and maintained accurate financial records for monthly and year-end reporting.
- Organized client financial data and prepared supporting documentation for US federal and state tax-filing requirements.
- Reviewed bookkeeping records for tax-filing readiness, ensuring compliance with relevant US tax regulations.

Business Consultant | Everwell | Pasadena, CA, USA | Jul 2016

- Advised small-business clients on operational matters including insurance, legal compliance, and regulatory requirements.
- Supported business owners through lending and borrowing processes, coordinating documentation and communication with financial institutions.
- Identified operational issues and recommended practical solutions to improve client business stability and performance.
